SUBJECT INDEX TO VOLUME XIX

(abs) = Abstract. (E) = Editorial. (B.R.) = Book Review

Abortion, therapeutic, induced by roentgen therapy, 133
Abscess, gangrenous, of lung, use of lipiodol in (abs), 92
  Of brain, value of radiographic contrast solutions in (abs), 506
  Of lung, lipiodol in, 86
Accidents and the roentgen ray, 567
Acid base balance, action of roentgen rays on (abs), 407
Acromegaly, double phalanx of right thumb in a patient with (abs), 177
Actinomycosis, roentgen treatment of (abs), 189
Actinotherapy, eye lesions in (abs), 407
Adenitis, tuberculous cervical, radium therapy in, 140
Adnexal diseases, inflammatory, treatment of, with roentgen rays (abs), 384
Air passages, foreign bodies in, 366
  Upper, radium treatment in neoplasms of (abs), 584
Alkali reserve, effect of ultraviolet rays upon (abs), 304
American College of Radiology, 83, 302, 373
American Radium Society, 165
  Preliminary program of, 481
American Roentgen Ray Society (E), 476
Amyl nitrite, as antispasmodic, 44
Analgesic property of roentgen rays (abs), 410
Anatomy, teaching of x-ray (abs), 307
  Use of radiology in the teaching of (abs), 409
Anemia, aplastic pernicious, following injections of thorium x (abs), 195
  Pernicious, caused by thorium (abs), 303
Anencephalus, diagnosis of, before birth (abs), 498
Angioma, cavernous, treatment of, 271
Anthracosis, pulmonary, roentgenology of (abs), 178
Antispasmodic, amyl nitrite as, 44
Aorta, roentgen study of (abs), 502
Apparatus for roentgen examinations of the head, 166
Appendicitis, value of roentgen examination in (abs), 504
Appendix, diverticulitis of (abs), 178
Arteritis of lower limbs, lipiodol used for information concerning (abs), 382
Arthritis, relation of therapeutic menopause to, 321
Arthropathy, syringomyelitic, roentgen demonstration of (abs), 89
Ascaridiasis, roentgen examination of small intestine in (abs), 577
Asthma, bronchial, roentgen treatment of (abs), 388
  Bronchial, roentgen treatment of (abs), 581
  Roentgen treatment of (abs), 391
  Roentgen-ray observations in (abs), 499
Astroblastoma, roentgen therapy of, 252
Astrocytoma fibrillare, roentgen therapy of, 245
  Protoplasmaticum, roentgen therapy of, 232
Astrocytomas, roentgen therapy of, 432
Atelectasis, bilateral, of the lung (abs), 487
  Massive, bronchoscopic observations of postoperative obstructive, 361
  Massive, clinical aspect of, 360
  Massive, production of experimental, 362
Atlas, roentgen representation of, and pars lateralis occipitis (abs), 492
Atresia, congenital of esophagus, roentgen diagnosis of (abs), 494

Bacillus mucosus capsulatus, pneumonia caused by, 371
  Roentgen diagnosis of pulmonary infections with the, 513
Back injuries in industrial employees (abs), 93
Bed-ridden patients, method of handling, 360
Bile duct, stasis of, shown by tetraiodophenolphthalein test after cholecystectomy (abs), 382
Bile sand, roentgen picture of (abs), 176
Bilharziasis, of bladder and ureter, roentgen diagnosis of (abs), 496
  Radiographic Diagnosis of, by G. O. Lotsy (B.R.), 85
Biological action
  Of radiation (abs), 303
  Of roentgen rays (abs), 311
  Of roentgen rays, study by explanation method (abs), 405
Biological behavior of radioactive substances on internal administration (abs), 305
Biological effect of roentgen rays (abs), 305; (abs), 403
Biological unit of radiation (abs), 304
Bladder, roentgen diagnosis of bilharziasis of (abs), 496
  Roentgen diagnosis of diverticulum of (abs), 492
  Ulceration of, as late effect of radium applications to uterus (abs), 511
Blebs, emphysematous, 164
Blood pressure, correlation of roentgenograms and clinical findings with (abs), 494
Blood studies of patients during radium treatment of carcinoma of neck of uterus (abs), 585
Blood vessels, calcified mesenteric (abs), 179
  Visualization of (abs), 593
Bone, central sarcoma of (abs), 87
  Diseases in infants and children (abs), 498
  Endothelioma of (abs), 96
  Lesions associated with leishmaniasis of the skin (abs), 577
  Metastasis to, from kidney tumor (abs), 179
  Paget's disease of (abs), 488
  Tumors, benign giant cell (abs), 181
  Tumors, diagnosis and treatment of (abs), 495
  Tumors, what a radiologist should know (abs), 176
Bones, diagnosis and prognosis of neoplastic lesions of (abs), 498
  Hodgkin's disease of (E), 563
  Long, roentgen study of lesions in, caused by congenital syphilis (abs), 186
Brain, abscess of, value of radiographic contrast solutions in (abs), 506
  Gliomas of, roentgen therapy of, 203
Brain tumors, calcified, roentgen diagnosis of (abs), 507
  Deep roentgen therapy of (abs) 196
  Roentgen therapy of (abs), 388; 432
  Symposium on, 370
  Treatment by irradiation, 1
Breast, cancer of, end results in 563 cases (abs), 199
  Cancer of, untreated (abs), 99
  Carcinoma of, late results of operation for (abs), 590
British Institute of Radiology (E), 476
Bronchi, primary carcinoma of (abs), 499
Bronchial dilatation and cardiodiaphragm triangle shadow (abs), 380
Bronchial stenosis, extrinsic, revealed by lipiodol (abs), 96
Bronchiectasis, associated with tuberculosis (abs), 380
  Diagnosis and treatment of (abs), 576
  Hemorrhagic, lipiodol in (abs), 383
  Left unilateral, associated with stenosis of right bronchus (abs), 383
  Mediastinal pleurisy and (abs), 384
Bucky diaphragm, new arrangement of, for encephalography, 482
Busi's kink of second portion of duodenum, anatomical and roentgen picture of (abs), 503

Calculi, renal, stimulation of, by papillomata of skin (abs), 95
Caldwell Lecture for 1928 (E), 476
Cancer (see also, Carcinoma, Malignant Disease and Neoplasms, malignant)
Colloidal lead treatment of, after method of W. Blair Bell (abs), 589
Control (B.R.), 377
Course for study of, 571
Institutions for treatment of (abs), 198
Metallic colloids in treatment of (abs), 587
Of breast, end results in 563 cases (abs), 199
Of breast, untreated (abs), 99
Of cervix, treatment of (abs), 309
Of cervix uteri, radium treatment of, 330
Of corpus uteri, radiation treatment of (abs), 194
Of esophagus (abs), 594
Of esophagus, radium therapy of (abs), 192
Of lung, roentgen observations in (abs), 381
Of skin, roentgen treatment of (abs), 196
Of tongue (abs), 586
Of uterus, results of roentgen therapy in (abs), 585
Of uterus, treatment of (abs), 190
Operable, of neck of uterus, radiation treatment of (abs), 191
Radiation biology of (abs), 580
Radiation treatment of (abs), 192
Radiosensitiveness of, unknown factors in problem of (abs), 197
Radium in adequate dosage in treatment of (abs), 583
Roentgen rays and radium in fight against (abs), 197
Treatment of, by combination of colloidal lead and irradiation (abs), 589
Cancerous growths, roentgen effect on (abs), 386
Cancers of skin, roentgen therapy with soft and oversoft rays (abs), 511
Capillaries of skin, changes in, after irradiation (abs), 400
Carbuncles, treatment of (abs), 510
Carcinoma (see also Cancer)
Gastric, treatment of, by radium (abs), 582
Mammary, treatment of, by radium (abs), 582
Of breast, late results of operation for (abs), 590
Of cervix uteri, radiation therapy of (abs), 389
Of lung, bronchial type, roentgen manifestations of primary, 126
Of lung, parenchymal type, roentgen manifestations of primary, 20
Of neck of uterus, blood studies of patients during radium treatment of (abs), 585
Of ovary, inoperable, value of irradiation in (abs), 512
Of uterus, irradiation treatment of (abs), 100
Of uterus, prognosis of irradiated (abs), 581
Primary, of the bronchi (abs), 499
Primary, of the bronchus, 368
Spontaneous cure of (abs), 391
Carcinomas, causes for failure of radiation therapy of (abs), 590
Mechanism of action of roentgen rays on (abs), 592
Cardiodiaphragm triangle shadow, autopsy observations (abs), 380
Cardiospasm, with kinking of esophagus from kyphosis (abs), 501
Casts, surface, method of making, for radium tubes (abs), 410
Cathode-ray work in progress, 313
Catholic Hospital Association, 165
Cecum, high, studies on the, 101
Cell, effect of roentgen ray upon chondriosome of (abs), 310
Cells, vegetable, effect of roentgen ray upon protoplasm and nucleus of (abs), 310
Central nervous system, effect of roentgen rays upon (abs), 401
Cervical spine, new method for roentgen examination of (abs), 486
Cervix uteri, carcinoma of, radiation therapy of (abs), 389
Radium in treatment of cancer of, 330
Treatment of cancer of (abs), 309
Charcot joints, pathology of (abs), 504
Charcot's spine, tabetic (abs), 93
Chest, diagnosis of tuberculosis in the child's (abs), 575
Cholagogues, cholecystographic studies after use of some popular, 341
Cholecystogram, end results of cholecystostomy shown by (abs), 97
Cholecystographic filling, failure of, in presence of acute pyloric pathology, 340
Cholecystography, advantages and defects of (abs), 185
By oral method (abs), 508
By rectal method (abs), 579
Diagnostic importance of negative findings in (abs), 178
Further experimental studies in (abs), 491
Modification of administration of tetraiodophenolphthalein by oral route for (abs), 577
New iodine compound for (abs), 576
Oral, comparison of methods (abs), 577
Peroral administration of colloidal contrast medium in (abs), 490
Present status of (abs), 92
Study of, after use of popular cholagogues, 341
Summary of (abs), 578
Cholecystostomy, end results of, shown by cholecystogram (abs), 97
Chondriosome, part of cell most sensitive to roentgen ray (abs), 310
Cinematographic camera, production of rapid serial roentgenograms from screen image by means of, 469
Cinematography, roentgen, of the stomach (abs), 594
Clavicle, congenital deficiency of (abs), 94
Cleidocranial dysostosis, hereditary (abs), 94
Climacteric symptoms, treated by irradiation of thyroid and hypophysis (abs), 389; (abs), 390
Cole, Albert M., notice of death of, 574
Colloidal contrast medium in cholecystography (abs), 490
Colloids, metallic, in treatment of cancer (abs), 587
Colon, foreign body in (abs), 487
Redundant (abs), 183
Studies; the high cecum, 101
Complement, guinea pig, effect of roentgen irradiation upon (abs), 394
Compton effect, in deep therapy (abs), 402; (abs), 408
Significance of, in radiation therapy (abs), 394
Contrast solutions, value of, in study of brain abscess (abs), 506
Coolidge, W. D., awarded medal, 83
Coracoid process, isolated fracture of, roentgen demonstration (abs), 488
Coryza, spasmodic, roentgen treatment of (abs), 391
Cough, undiagnosed (abs), 509
Court opinion, 571
Coxa plana, end results of (abs), 94
Cyst, of lower end of femur (abs), 578
Pilonidal, lipiodol in diagnosis of (abs), 177
Cysts of pancreas, clinical and roentgen study (abs), 177

Dangers from use of roentgen rays and radioactive substances (abs), 308
Dental films, use of, for determination of stray radiation (abs), 412
Dextrose, value of intravenous injections of, in radiation treatment of malignant disease (abs), 582
Diaphragm, eventration of, etiology and clinical symptoms of (abs), 497

Diaphragm, paralysis of, in unilateral exeresis of phrenic nerve (abs), 578
Diaphragmatic hernia, parasternal, a case of (abs), 507
Digestive tract, tolerance of, to large number of needles (abs), 491
Di-iodo-di-ethyl-ether of di-salicylphthalein, for use in cholecystography (abs), 576
Diseases of the Mouth, by Sterling V. Mead (B.R.), 85
Diverticula, jejuno-ileal (abs), 89
Of thoracic esophagus, 27
Diverticulitis of the appendix (abs), 178
Diverticulum of urinary bladder, roentgen diagnosis of (abs), 492
Dosage Measurements, ionization chamber for, 461
Of roentgen rays, errors in (abs), 395
Problem, remarks on (abs), 303
Radium in adequate, in treatment of cancer (abs), 583
Dose, biological effect of (abs), 397
Calculation of, by "mekapion" (abs), 406
Erythema, for radiations used in superficial therapy (abs), 411
Roentgen, standardization of, 47
Skin tolerance, in roentgen units for various wave lengths (abs), 404
Time recorder in (abs), 407
Doses, erythema, in roentgen units (abs), 395
Roentgen, in absolute R units (abs), 404
Small, roentgen therapy with (abs), 98
Dosimeter, a new portable (abs), 398
Dosimetry, inadequately considered points in roentgen-ray (abs), 594
Ducts of salivary gland, lipiodol in (abs), 89
Duodenal exposures, modification of Heyden sliding frame for (abs), 412
Duodenal passage, deep-seated hindrances to (abs), 489
Duodenal stasis, chronic (abs), 495
Duodenojejunal angle, stenotic periduodenitis of (abs), 187
Duodenum, anatomical and roentgen picture of Busi's kink of second portion of (abs), 503
Chronic obstruction of (abs), 487
Congenital malformations of (abs), 488
Dysostosis, craniofacial, report of two cases (abs), 383
Dystrophy, a hitherto undescribed (abs), 91
Osseous, in Recklinghausen's disease (abs), 93

Ear diseases, Finsen treatment of, 300
Echinococcus cyst of the lung, roentgen appearance of (abs), 487
Elbow, epiphysis at, roentgen picture of detachments of (abs), 175
Giant cell tumor of, treated by roentgen rays (abs), 200
Electrothermic methods in treatment of neoplasms (abs), 202
Emanatorium experiments with rats (abs), 308
Emanatorium treatment, continuous, effect of, on rats (abs), 405
Emphysema, blebs of, 164
Empyema cavities, iodized oil in (abs), 94
Encephalography, new arrangement of Bucky diaphragm for, 482
Observations on, 370
Endocrine glands, action of roentgen rays upon (abs), 393
Relation of hypophysis to (abs), 399
Endothelioma, of bone (abs), 96
Recurrent, of parotid gland (abs), 98
Ependymomas, roentgen therapy of, 258
Epiphyseal separation of ischium (abs), 96
Epiphysis at elbow, roentgen picture of detachments of (abs), 175
Epulis, radium treatment of, 265
Esophagus, cancer of (abs), 594
Cancer of, radium therapy of (abs), 192
Cardiospasm caused from kinking of (abs), 501
Roentgen diagnosis of congenital atresia of (abs), 494
Thoracic, diverticula of, 27
Eventration of the diaphragm, etiology and clinical symptoms of (abs), 497
Exostosis, diagnosis of (abs), 499
Explanation method, biological action of roentgen rays studied by (abs), 405
Eye, foreign bodies in, 79
Lesions in actinotherapy and their prophylaxis (abs), 407
Lesions of, radium therapy in (abs), 191
Localization of foreign bodies in, 478
Localization of foreign bodies in or about (abs), 500

Face, lesions of, treated by irradiation, 437
Fatty tissues, malignant tumors of (abs), 200
Female disorders, stimulative irradiations in (abs), 390
Femur, congenital absence of, 531
Cyst of lower end of (abs), 578
Filter safety, new method of (abs), 405
Finsen treatment of ear diseases, 300
Fistula, between portions of intestinal tract, roentgen findings in (abs), 180
Parotid, roentgen treatment of (abs), 187
Fistulous tracts, use of iodized oil in (abs), 94
Foot, anomaly of bones of (abs), 489
Diagnosis and treatment of bone lesions of (abs), 495
Distinctive type of disorder of (abs), 95
Foreign bodies
In air passages, 366
In or about eye, localization of (abs), 500
In the eye, localization of, 79, 478
Foreign body in the colon (abs), 487
In the rectum, 291
Fracture of coracoid process, isolated, roentgen demonstration of (abs), 488
Fractures, table for reduction of, under roentgenoscopic control (abs), 402
Fraenkel, A., remarks on article by (abs), 493
Friedländer bacillus, pneumonia caused by, 371
Roentgen diagnosis of pulmonary infections with the, 513
Fürstenau intensimeter, standardization of (abs), 403

Gall-bladder, contraction and evacuation of, caused by "secretin" preparation (abs), 382
Diagnosis of (abs), 575
Duodenal drainage of (abs), 592
Experiments on emptying of (abs), 306
Mechanism of emptying (abs), 92
Reflex inhibition of (abs), 592
Studies on emptying of (abs), 381
Versus sphincter papillae (abs), 380
Gastric neurosis, roentgen findings in (abs), 185
Gastric secretion, influence of roentgen rays upon, 61
Study of, with opaque pastes (abs), 188
Gastric ulcer, etiology of (abs), 90
Gastroduodenal ulcer, complications secondary to perforation of (abs), 175
Gastrointestinal examination, amyl nitrite in, 44
Importance of teeth in (abs), 187
Gastrointestinal tract, roentgen findings in fistula formation between portions of (abs), 180
Gastrojejunal ulcer, roentgen diagnosis (abs), 89
Genital organs, relation of hypophysis to (abs), 399
Genital system, roentgen diagnosis in (abs), 502
Genitourinary problems, roentgen assistance in solving (abs), 497
German Roentgen Society, recommendations of, on use of protective measures against roentgen rays (abs), 311

German Roentgenologists and Radiologists in the Czechoslovakian Republic, Federation of, 566
Giant cell bone tumors, benign (abs), 181
Giant cell tumors, multiple (abs), 485
Treated by roentgen rays (abs), 200
Glass, fragments of, roentgen demonstration of (abs), 184
Gliomas of brain, roentgen therapy of, 203
Goiter, exophthalmic, roentgen treatment of (abs), 389
Toxic, diagnosis and treatment, 539
Gonorrhea, treatment of, with roentgen rays (abs), 384
Göttingen calibration apparatus (abs), 398
Gout-like clinical symptoms, roentgen demonstration of lime deposits in conjunction with (abs), 493
"Grenz" radiation, physical and biological studies on (abs), 305
"Grenz"-ray therapy, fundamentals and prospects of (abs), 385
Physical and clinical foundations of, 442
Guinea pig, action of irradiations upon (abs), 310
Gynecologic therapeutics, roentgen rays and radium in (abs), 100
Gynecology, iodized oil and pneumoperitoneum in (abs), 507

Hand, diagnosis and treatment of bone lesions of (abs), 495
Head, apparatus for roentgen examinations of, 166
Heart beat, automatic, effect of radiation with soft radium rays (abs), 409
Heart defects, congenital, roentgen diagnosis of (abs), 485
Heliotherapy, physical and biological problems in, 144
Hemangioma, cavernous, radium treatment of, 265
Hemangiomas, roentgen diagnosis of (abs), 507
Hemorrhage, ameliorated by roentgen therapy (abs), 191
Hereditary cleidocranial dysostosis (abs), 94
Heyden sliding frame, modification of, for duodenal exposures (abs), 412
Hip, congenital dislocation of (abs), 87
Value of Shenton's sign in roentgen diagnosis of congenital luxation of (abs), 500
Unusual roentgen finding in, 290
History of roentgenology (E), 158; (E), 294; 480
In North America (abs), 303
Request for contributions (E), 355
Hodgkin's disease of bones (E), 563
Humerus, explosive fractures of upper end of (abs), 181
Hydatid cysts, action of lipiodol upon (abs), 303
Hypernephroma metastasis in spine resembling tuberculous spondylitis (abs), 506
Hypertension, paroxysmal, cured by roentgen therapy of suprarenals (abs), 388
Hyperthyroidism, radium treatment of (abs), 196
Treatment of, 546
Hypophysis, irradiation of, for treatment of climacteric symptoms (abs), 389; (abs), 390
Relation of, to genital apparatus (abs), 399
Tumors of, roentgen therapy of (abs), 387

Ileus, roentgenological aid in diagnosis of, 413
Ilium, sarcoma of, roentgen treatment of (abs), 195
Illuminator, a new milliammeter (abs), 311
New field, for roentgen-ray cone (abs), 404
Indiana Roentgen Society, 302
Infants, lesions of long bones in, from congenital syphilis (abs), 187
Inflammations, roentgen treatment of (abs), 190; (abs), 193; (abs), 194; (abs), 197
Inflammatory conditions in gynecology, roentgen therapy of (abs), 201
Instruction in radiology, discussion of, at International Congress of Radiology, 82
Intensimeter, Fürstenau, standardization of (abs), 403
Intensity distribution of roentgen rays (abs), 309
Internal administration of radioactive substances (abs), 305
Internal diseases, deep therapy in (abs), 194
Internal radium emanation therapy, experiments with (abs), 308
International Congress of Radiology, Second, 373
Exhibition of radiological literature at, 301
Instruction and training in medical radiology to be discussed at, 82
Itineraries to, 81
Visits to European clinics in connection with, 301
Intestine, anomaly in arrangement of human (abs), 579
Small, anatomy of normal (abs), 183
Small, chronic obstruction of (abs), 488
Small, roentgen diagnosis of strictures of (abs), 180
Small, roentgen examination of, in ascaridiasis (abs), 577
Small, stenosis of, from tuberculoma (abs), 186
Intracranial hypertension, roentgen therapy in (abs), 98
Intrathoracic lesions, diagnostic value of iodized oil in (abs), 493
Intratumoral treatment by thorium x (abs), 386
Intrauterine radium exposures, substerilizing (abs), 582
Iodine compound, new, for cholecystography (abs), 576
Iodism, symptoms of, following intrabronchial injection of lipiodol (abs), 383
Iodized oil (see also Lipiodol)
Blood vessel visualization after injection of (abs), 503
Diagnostic value of, in intrathoracic lesions (abs), 493
In empyema cavities and fistulous tracts (abs), 94
In gynecology (abs), 507
Intratracheal injection of (abs), 184
Iododerma from (abs), 591
Method of injection of, into sinuses (abs), 505
Metrosalpingography with aid of, 348
Iododerma from iodized oil (abs), 591
Ionization chamber, standardization of (abs), 405
Standard, for roentgen dosage measurements, 461
Thimble, independent of quality of radiation (abs), 304
Iontoquantimeter, increase of accuracy in roentgen measurements by use of (abs), 404
Irradiation, general, of the human body, with roentgen rays (abs), 392
Relation of, to physical factors (E), 75
Irradiations, action of, on guinea pig (abs), 310
Ischium, congenital absence of, 531
Epiphyseal separation of (abs), 96
Italy, invitation to visit, 571

Jaws, effect of roentgen rays and radium upon (abs), 398
Jejuno-ileal diverticula (abs), 89
Joints, Charcot, pathology of (abs), 504
Of lower extremity, dystrophy of (abs), 91

Kidney, diagnosis of tumors of pelvis of, 344
Polycystic, roentgen picture of (abs), 186
Sensitivity of, to irradiation (abs), 188
Stones in, simple way of location, 301
Technique for projection of, on roentgenograms, 359
Tumor, metastasis to bone from (abs), 179

Lactic acid as an intermediate product of anoxybiotic carbohydrate metabolism in animal cell (abs), 406
Lead, colloidal, combined with irradiation in cancer therapy (abs), 589
Colloidal, in treatment of cancer after method of W. Blair Bell (abs), 589

Lead, colloidal, in treatment of malignant neoplasms (abs), 587
Therapy, effects of, combined with radiation (abs), 590
Lehrbuch der Röntgendiagnostik, mit besonderer Berücksichtigung der Chirurgie (B.R.), 377
Leishmaniasis of the skin, with unusual bone lesions (abs), 577
Leucemia, radium treatment of, 15
Treatment of (abs), 384
Leucocyte level, maintenance of, during irradiation (abs), 307
Leucocytes, pathogenesis of changes in, after roentgen irradiation (abs), 591
Lime deposits, roentgen demonstration of, in conjunction with gout-like clinical symptoms (abs), 493
Linitis plastica, and benign hypertrophy of the stomach (abs), 490
Lipiodol, bronchography with, in purulent lung affections (abs), 181
Does it have a local hydaticide action? (abs), 303
Examination of gangrenous abscess of lung by (abs), 92
Examination of lungs with (abs), 92
Examination of pericardium by (abs), 91
Examination of pyopneumo cyst by (abs), 90
Extrinsic bronchial stenosis revealed by (abs), 96
In arteritis of lower limbs (abs), 382
Incidents in injection of (abs), 184
Injection in ducts of salivary glands (abs), 89
Injection of pilonidal cyst with (abs), 177
Interlobar pleurisy localized by (abs), 86
Iodide intoxication following injection of (abs), 383
Relation of, to thoracic surgery (abs), 493
Roentgen diagnosis of lesions of spinal cord with (abs), 175
Study of hemorrhagic bronchiectasis after injection of (abs), 383
Symptoms of iodism following intrabronchial injection of (abs), 383
Value of, in lung abscess (abs), 86
Liver, calcifications of, shown by roentgen examination (abs), 176
Localization and mensuration by means of roentgen ray (abs), 494
Of foreign bodies in or about the eye (abs), 500
Of foreign bodies in the eye, 79, 478
Lung abscess, caused by pneumococcus (abs), 380
Lipiodol used in (abs), 86
Lung, accentuation of transparency of extreme apex of (abs), 593
Anthracosis of, roentgenology of (abs), 178
Cancer of, roentgen observations in (abs), 381
Echinococcus of, roentgen appearance of (abs), 487
Examination of, with lipiodol (abs), 92
Gangrenous abscess of, lipiodol in (abs), 92
Massive collapse of (abs), 487
Postoperative massive collapse of (abs), 493
Primary carcinoma of (bronchial type) roentgen manifestations of, 126
Primary carcinoma of (parenchymal type) roentgen manifestations of, 20
Pseudocavities or annular structures in the (abs), 579
Purulent affections of, bronchography with lipiodol in (abs), 181
